14,000 CFM & 1.5 MBTU

Solution
UniCure Zapper 3007

O'leary Buick GMC Fredericton
Fredericton, NB

were looking for a paint booth to fit there needs at there Hanwell location the chose to work with Atlantic Air Cleaning.

Our staff has been solving indoor air polition problems for over 28 years. Our expericance in larg custome projects has given us the abilty to give our customers eaxctly what they want. We customized UniCuers zapper 3007 model paint booth to meet the restrictions of the space at O'learys. Our years of expericance and a great manufactuere backing us gives us the abilty to make this happen.

Our partner UniCure has built equipment for collision repair shops both large and small, national chains, dealer groups, truck dealers, truck manufacturers and the U.S. and Canadian Government. UniCure Spraybooths has the reputation, the references, the personnel, and the superior products that are known industry-wide and will earn your confidence. Interstate Marketing also has a full time parts and service department available to service all their product lines including UniCure to insure that customers receive personal attention and superior service before, during and after each sale.
